

TW:BT-1R-1/4-6.5, T-Handle Torque Wrench

TW:BT-1R-1/4-6.5, T-Handle Slip Type Torque Wrench, 1/4 in square drive, 6.5 lbs-in (0.73 Nm)

Description

Ruland TW:BT-1R-1/4-6.5 is a T-handle slip type torque wrench with a 1/4" square drive size. It is preset at the factory to 6.5 lbs-in (0.73 Nm) of allowable torque. Upon reaching the specified torque value of 6.5 lbs-in (0.73 Nm), the torque wrench automatically releases and resets. This prevents tightening above the preset value, even with continued turning. The T-handle profile allows the user to easily grip the torque wrench and rotate by hand. TW:BT-1R-1/4-6.5 is manufactured by Seekonk Precision Tools in Massachusetts from chrome plated alloy steel for durability and longevity in industrial environments. It is made in accordance with Federal Specification MIL-STD-45662A and comes standard with an NIST traceable certification. Periodic calibration is required depending on frequency of use.

Product Specifications

Tool Type	Torque Wrench	Handle Type	T-Handle
Torque Setting	6.5 lbs-in (0.73 Nm)	Torque Range	Factory Set
Accuracy	+/- 1/2 lbs-in, +/- 0.057 Nm	Torque Limiting Direction	Clockwise
Operation Mode	Torque Right, Ratchet Left	Drive Size	1/4 in square
Handle Width	3-1/2 in (89 mm)	Overall Length	3-3/8 in (86 mm)
Material Specification	Chrome Plated Alloy Steel	Manufacturer	Seekonk Precision Tools
Country of Origin	USA	Weight (lbs)	0.750000
UPC	634529221983	Tariff Code	8204.20.0000
UNSPC	27111715		
Note 1	Shipped with a NIST calibration certificate.		
Note 2	Periodic calibration is required depending on frequency of use.
