

Delrin, Black, 3-Pack

Delrin is one of the best performing engineering plastics and a favorite milling material among CNC enthusiasts. It machines beautifully, leaving smooth edges and a finished appearance. It's great for gears, levers, and other small components. Available in three-packs of 4"x5" in two different thicknesses.

4"x5"x0.125", 4"x5"x0.250"
